PROFILE

A motivated software engineering student passionate about building intuitive web and applications.
Known for a strong work ethic, adaptability, and effective collaboration in team environments. Always eager to learn, solve problems, and contribute to impactful projects.

EXPERIENCE

Front-End Developer, *Softtech Carthage*
2023 – Present
Dubai
- Freelance Job Marketplace Website: Designed and developed the front-end using TypeScript and Tailwind CSS
- Collaborated with a team to make strategic decisions for the website's design and functionality.
- Utilized GitHub for version control and Figma for creative assets.
- Contributed to a platform inspired by Fiverr and Upwork, connecting clients and freelancers.

Full Stack Developer, *Craftschoolship*
02/2025 – 06/2025
California, United States
- Created the Organization Management Microservice Using Spring Boot.
- Dockerization of the Microservice.
- Testing using Postman and Junit & mockito.
- Automated the deployment with Github Actions.
- Created a multi rolled dashboard using React- Connected the Application and Client side Using :
- Redux for global state management (user session, roles)
- Axios for HTTP requests
- Formik for dynamic form construction and validation

Organizer, *Google Developers Group*
10/2024 – 05/2025
Sousse, Tunisia
- Helped under classes with front-end development mainly react.
- Participated in teamwork and collaboration projects.
- Learned Google technologies Angular and Gemini API.

Controller, *Rosa Beach Hotel*
06/2023 – 08/2023
Monastir, Tunisia
- Administrative Organization: Worked as a control at a hotel, managing guest relations and handling legal documents, ensuring smooth operations and compliance.

EDUCATION

Bachelor Degree in Software Engineering & Information Systems, *Horizon School Of Digital Technologies*
2022 – 2025
Sousse, Tunisia
Good Honors

Baccalaureate Degree in Computer Science, *Lyceé 14 Janvier Ouardanine*
2018 – 2022
Monastir, Tunisia
Fairly Good Honors

SKILLS

Technical Skills
- **Front-End Development:** HTML, CSS, JavaScript, TypeScript, React, Next.js, Tailwind CSS
- **Back-End Development:** Node.js, Express js, Java, SpringBoot, Python
- **Operating Systems:** Linux(ZorinOS), Windows(10 pro).
- **DevOps:** Docker, Github Actions.
- **Web Design:** Canva, Figma

Soft Skills
- **Team Collaboration and Decision-Making:** Successfully facilitated Agile practices as a Scrum Master, ensuring effective communication, conflict resolution, and delivery of project goals within timelines.
- **Time Management and Working Under Pressure**
- **Multilingual Communication:** Fluent in Arabic and English, proficient in French, basic German

PROJECTS

University & Self-Directed Projects, *Student*
2022 – 2025
- Undertook independent and university projects to deepen expertise in modern web and mobile development frameworks, including Java, Springboot, Next.js, TypeScript, Node.js, React Native, XML, and Tailwind CSS.
- Set self-imposed deadlines to simulate professional work environments, enhancing the ability to perform effectively under pressure.
- Strengthened technical skills and developed adaptability to dynamic project demands.
- Participation in Nuit de l'Info: Took part in two "Nuit de l'Info" overnight programming events on 2023 and 202, enhancing skills in teamwork, problem-solving, and rapid prototyping under tight deadlines.
